Keynote Speaker

Enlighten & Entertain

From major event keynotes to small leadership training sessions and everything in between, Jason Falls has enlightened and entertained audiences in eight countries and on three continents. His focus is to bring both immediate, practical advice your audience can implement immediately, and inspiration to change your strategic thinking to move your business forward. Falls is a straight-shooter who has been called "brash" and "thought-provoking," but often mixes wit and witticism into his presentations to give audiences great information while being entertained. He has donned stages at events like Internet Retailer, the SEMA Show, IBM Aspire, Dreamforce, SXSW and Inbound.

Bring Your Virtual Event to Life

JASON FALLS

All of Falls's dynamic keynote presentations and your custom content requests can be made virtual as webinars or content for virtual meetings. Falls employs a variety of techniques to keep the energy and engagement high and attendees learning.

Few people can anchor a brand's live stream like Falls, who not only hosts his own video interview show each week, but produces live stream programs for a number of top-tier clients in the beverage, tourism and sports industries.

Thanks to his experience as a broadcaster and interviewer, Falls is the perfect virtual emcee or panel moderator who brings his storytelling content technique to life with your event.
